Sir:

The Examiner is requested to consider the references noted on the enclosed Form PTO/SB/08a during examination of the above-identified patent application. These references are submitted for the Examiner's consideration and are submitted pursuant to the duty of disclosure under 37 C.F.R. § 1.56. In submitting these references, no representation is made or implied that the references are or are not material to the examination of the application. The Examiner is encouraged to make his or her own determination of materiality. Pursuant to the requirements of 37 C.F.R. § 1.98(a)(2)(ii), only copies of the foreign references and non-patent literature documents are provided. Copies of the U.S. patent and U.S. patent application publication references are not provided, unless required by the Office.

This Information Disclosure Statement is being filed before the first Office action, concurrently with the filing of a Request for Continued Examination. Accordingly, pursuant to 37 C.F.R. § 1.97(b)(4), no fees are due with respect to this filing. However, should any such fees or petitions be required, please consider this a request therefor and authorization to charge Deposit Account No. 04-1415 as necessary.

In satisfaction of the duty of disclosure under 37 C.F.R. § 1.56, and as required by M.P.E.P. § 2001.06(b), the Examiner is requested to consider the pending U.S. application listed in "Attachment A," which is owned or licensed by the Assignee of the present application. The pending U.S. application cited in Attachment A includes subject matter and claims similar to that of the present application.

The Assignee directs the Examiner's attention to McKesson Information Solutions, Inc. v. Bridge Medical, Inc. , 487 F.3d 897, 901 (Fed. Cir. 2007), in which the U.S. Federal Circuit Court held that inequitable conduct existed on behalf of applicant for failure to disclose "items of information during prosecution . . . of copending applications." In light of this decision, the Assignee has cited on the enclosed Form PTO/SB/08A prosecution documents from co-pending U.S. Application No. 10/589,631 (Publication No. 2009/0008203), which is closely related to the above-referenced application. The prosecution documents are cited to allow the Examiner to assess whether the Examiner considers any portion of the exchanges between the USPTO and the Assignee in the '631 application to be material to the patentability of this application.

If the Examiner has any questions, please contact the undersigned attorney.
